PROFILE SUMMARY

Aspiring B.Tech CSE (AI/ML) student at Chandigarh Engineering College, Jhanjeri with a robust foundation in Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), and Design and Analysis of Algorithms (DAA). Hands-on experience in software development with proficiency in Python, complemented by strong problem-solving abilities and a passion for writing clean, efficient code. Eager to apply advanced algorithmic thinking, design scalable systems, and explore generative AI techniques through continuous learning and innovation. Seeking opportunities to contribute effectively to real-world AI-driven projects and expand expertise in generative models, LLMs, and AI-driven solutions.

EDUCATION

- Bachelor of Technology (Computer Science and Engineering)** **2023-2027**
Chandigarh Group of Colleges, Jhanjeri
CGPA: 7.4
- Higher School Education (Non-Medical)** **2022-2023**
A . P . J . PUBLIC SCHOOL, MUNDI KHARAR, MOHALI, PUNJAB
Percentage: 68%
- Secondary School Education** **2020-2021**
A . P . J . PUBLIC SCHOOL, MUNDI KHARAR, MOHALI, PUNJAB
Percentage: 62%

TRAINING AND INTERNSHIP

- Comptia Data+ Training - Issued by CGC Jhanjeri** **05/2025-07/2025**
 - Hands-on skills were built in specific tools like Excel, Power BI, and Tableau.
 - It structured my knowledge in data visualization (choosing the right chart, minimizing bias), data cleaning & preprocessing (handling missing data, validation), and SQL querying fundamentals.
- Full Stack with Java Training - Certified by Techlive** **03/2025-04/2025**
 - This program provides end-to-end training in building modern web applications using the robust java ecosystem.
 - This covers essential backend technologies like Spring Boot alongside core frontend skills including HTML, CSS, JavaScript.
- Frontend Developer Internship - Versatile Learning** **08/2023-01/2024**
 - Directly contributed to the company's primary website by building responsive, interactive UI components using modern frontend technologies (mention specific ones, e.g., HTML/CSS/JS/Jquery).
 - This involved translating design into functional code, ensuring a seamless and accessible user experience for learners and administrators.

PROJECTS

Predictive Maintenance of Machines Edge AI Focus

- This project focuses on the development of a machine learning application designed for predictive maintenance of industrial machinery.
- By leveraging historical equipment data, the system aims to forecast potential failures before they occur, allowing for timely maintenance and reducing costly downtimes.

- **Tech Stack:** Python 3.11+, Streamlit, scikit-learn, joblib, Random Forest Classifier

Public Track

- PublicTrack is an application built with a PostgreSQL backend, designed to manage and track public data records.
- It features a full-stack setup including database models, configuration management, static assets, and data export functionality, all structured for modular scalability and deployment readiness.
- **Tech Stack:** Python 3.10+, PostgreSQL 14+ with Postgis, Javascript, HTML, CSS

Currency Converter Dashboard

- The Currency Converter Dashboard is a Python-based graphical application utilizing static mock exchange rates designed for real-time currency conversion and financial visualization.
- In addition to conversion capabilities, the application features an interactive dashboard that presents currency strength through dynamic charts.
- **Tech Stack:** Python, tkinter, matplotlib.

SKILLS

- **Technical Skills:** Python, Numpy, Pandas, Matplotlib, R, Flask, HTML, CSS, JavaScript, Node.js (Basics), Git, GitHub, MySQL, PostgreSQL, MongoDB, Machine Learning, Deep Learning
- **Soft Skills:** Leadership, Problem Solving, Teamwork, Communication, Adaptability, Time Management
- **Core CS Concepts:** Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS, Computer Networks

CERTIFICATIONS

- **AWS Academy** - [Generative AI Foundations](#)
- **IBM SkillBuild** - [Artificial Intelligence Fundamentals](#)
- **Appreciation Certificate from CGC University** - [AI Impact Summit 2025](#)
- **Participation Certificate from CGC Jhanjeri** - [National Science Day 2024](#), [Saviskar Code Cracker](#), [Tata Elxsi](#)
- **Sololearn Certified** - [SQL, Python, Java, C++, CSS, HTML, C](#)
- **HP Life Certified** - [AI for Beginners, Data Science and Analytics](#)
- **Programming Hub Certified** - [R Programming](#)
